

Code of Conduct and Ethics

June 2020

Our culture is unique! We are a meritocratic partnership driven by an entrepreneurial spirit, innovative vocation, ethical behavior and transparency.

Message from the CEO

Dear Colleagues,

I am very proud of what we have built over our more than 35 years of existence. We have improved our partnership and corporate governance model, establishing the highest standard of ethical and professional behavior.

Our culture is unique! We are a meritocratic partnership driven by an entrepreneurial spirit, innovative vocation, ethical behavior and transparency. Our business model, with a horizontal structure, encourages the exchange of ideas, teamwork and integration and synergy between different areas.

All of this is essential to maintain the confidence of the different audiences with whom we relate, which is essential for our success.

This Code of Conduct and Ethics reflects our commitment to our culture, to our customers and to society. Thinking about the future and doing it in the present, always behaving like owners and leading by example, conducting our business with professionalism and encouraging the ethical conduct of all employees, providing support so that everyone feels comfortable asking questions or reporting problems and concerns.

Our purpose is to exceed expectations and to achieve this we need the trust of our customers.

The Code is designed to be used as a guide for our daily activities and it is your responsibility to fully understand and comply with it. No business or opportunity justifies ignoring our values and culture.

Remember: no document will be able to anticipate all the situations that we will face in our day to day and therefore, when in doubt, consult your manager or the Compliance team.

Our integrity starts with you!

Thank you very much,
Roberto Sallouti!

Overcoming expectations motivates us!

Our People

The excellence of human capital is the main pillar for our success.

Our success depends on the behavior of the people who work here and that is why we always look for professionals who are aligned with our culture and values, regardless of the area of expertise or field of knowledge.

People with high potential, commitment and ethics have a structure at BTG Pactual that favors growth and provides great professional development.

For this reason, this Code applies to all employees, from the intern to the president and board members, and everyone must comply with these guidelines regardless of the country in which they are located.

We believe that the sense of ownership created by the partnership encourages a rigorous analysis of risks in our daily activities, the search for new strategies that highlight consistent and profitable growth, long-term commitment to our customers and our reputation and maintenance of a lean and engaged organizational structure.

Our greatest strategy is the cultivation of lasting relationships and we believe that in order to have satisfied customers and an engaged team, we need to conduct our decisions with integrity.

Every employee must:

- Comply with the laws, regulations and internal policies that govern our business;
- Conduct business in a transparent, prudent and reliable manner;

- Ensure that our daily conduct and decision-making incorporates the guidelines of this Code;
- Raise concerns and ask questions;
- Immediately report and escalate any problems

Our partners and managers have an even greater responsibility. We expect partners to lead by example and supervise the activities and conduct of employees in their line of business. So it is important to:

- Regularly reinforce the importance of understanding and following the guidelines of this Code;
- Encourage employees to raise concerns and report problems;
- Pass on our culture and values to current employees and newly hired employees.

Decisions

BTG Pactual expects its employees to conduct their daily lives with the highest standard of ethical behavior and our decisions must reflect this. Therefore, we hope that before deciding, the employee always asks himself:

- Does it comply with internal laws, regulations and policies?
- Is it our customers' best interest?
- Am I sure it will not cause losses for our customers?
- Would it be good if everyone did the same?
- Am I sure I wouldn't feel uncomfortable or embarrassed if I read about it on the front page of the newspaper?

If the answer is yes to all questions, the decision appears to be in accordance with this Code. If the answer is no to any of these questions, stop! This decision can have serious consequences for our reputation.

If you are unsure, seek help from your manager or the Compliance team.
